<b>Product Specifications</b>	
Feedstuff	<b>Wheat Feed</b>
Trading Name	<b>Wheat Feed, Pollard</b>
Product Description	Product of flour or malting manufacture obtained from screened grains of wheat or dehusked spelt. It consists principally of fragments of the outer skins and of particles of grain from which less of the endosperm has been removed than in wheat bran.
Category	1.11.6
Image: <u>Typical Image of Wheatfeed Pellets**</u>	
	
<i>** (product may vary in appearance depending on suppliers)</i>	
Specification*	<u>Typical Nutritional Analysis:</u> Protein ~13-15% Fibre ~9% Oil ~3-4% Moisture ~13% <span style="float: right;">* (values are not contractual)</span>
General Use	Animal feed ideal for ruminants, pig feed and horse feed. Highly digestible and has good palatability.
Packaging & Transport	Bulk
Labelling	According to EU legislation
Storage & Storage life	Wheat feed is to be stored in cool, dry conditions as it has a tendency to go mouldy quickly and can develop strange flavours.
Legal Demands	The products comply with legal requirements & legislation. The most significant elements of which are: <ul style="list-style-type: none"> <li>• Regulation 183/2005 on Feed hygiene.</li> <li>• Regulation 767/2009 on placing on the market and the use of feed.</li> <li>• GMP+ Feed safety Assurance Scheme.</li> </ul>
Undesirable substances	The maximum determined contents for undesirable substances in feedstuff, such as established in: <ul style="list-style-type: none"> <li>• Directive 2002/32/EG on undesirable substances in animal feed;</li> <li>• GMP+FSA; Appendix 1 (Product standards, including residue standards)</li> </ul>

***This is for information purposes only and is not contractual.***

	<ul style="list-style-type: none"> <li>Regulation 396/2005 on maximum residue levels of pesticides in or on food or feed.</li> </ul>
<b>Specific analysis and standard tolerances</b>	
Salmonella – Absent in 25 grs	
Appearance	Light brown meal/ can be formed into pellets
Country of origin	EU

<b>Health Information:</b>	
<b>Inhalation</b>	Wheat feed can produce dust which may irritate/affect breathing. If asthmatic use a dust mask.
<b>Ingestion</b>	No effects
<b>Eye Contact</b>	Dust may cause irritation and redness.
<b>Skin Contact</b>	Dust can cause irritation or sensitivity to skin.
<b>Toxicological Information</b>	Not known
<b>Occupational exposure limits</b>	None

<b>Emergency first aid procedures:</b>	
<b>Ingestion</b>	No-known effects
<b>Eye Contact</b>	Flush eyes with water for 15 minutes, if irritation continues seek medical help.
<b>Skin Contact</b>	In certain individuals subject to Malady, dermatitis may occur and hence protective gloves may be advisable. Wheat feed is classified as non-toxic but as dust nuisance only. It is not corrosive.
<b>Inhalation</b>	Classed as a dust nuisance however, if breathing difficulties occur move to a well ventilated area. If breathing problems are still occurring please seek medical help.

<b>Physical properties:</b>	
<b>Physical state</b>	Meal or Solid pellets
<b>Appearance</b>	Light brown
<b>Odour</b>	Wheat feed has a slight, pleasant odour and is high susceptible to the absorption of stronger odours.
<b>Flammability limits</b>	Wheat feed has a tendency to self heat and is dusty which can cause an increased risk in spontaneous combustion.

<b>Fire &amp; Explosion hazard:</b>	
<b>Flash point</b>	Not known
<b>Flammability</b>	Not known
<b>Extinguishing media</b>	Foam, dry chemical, carbon dioxide
<b>Explosion Class</b>	St 1

<b>Special fire fighting procedures &amp; precautions</b>	
<p>Wheat feed has a tendency to self- heat, ventilation is important. Combustible when subjected to heat. Suitable extinguishing agents are dry agent, carbon dioxide and foam. Fire fighters should use self-contained breathing apparatus to avoid exposure to smoke and fumes.</p> <p>Adequate extraction facilities should be provided in all areas subject to dust.</p>	

<b>Reactivity:</b>	
<b>Stability</b>	Stable
<b>Hazardous Polymerization</b>	Not known

***This is for information purposes only and is not contractual.***

<b>Material to avoid</b>	Strong oxidizing agents and moisture.
<b>Hazardous decomposition products</b>	Combustion produces CO <sup>2</sup> , CO & thick smoke
<b>Combustibility (BZ)</b>	BZ 2- Catches fire briefly and extinguishes rapidly

<b>Personal protection / Exposure control:</b>	
<b>Respiratory Protection</b>	Always ensure the work area has adequate ventilation. In case of dust formation, wear appropriate respiratory protective equipment determined and fitted by an expert.
<b>Skin protection</b>	Gloves and overalls should be worn when handling.
<b>Eye protection</b>	Always wear approved safety glasses when working. Full face protective shields can be worn to avoid contact with face. Wash stations should be provided.
<b>Footwear</b>	Appropriate footwear as specified by workplace requirements.

<b>Environmental Protection:</b>	
<b>Environmental precautions</b>	None.
<b>Spill or leak precautions</b>	No special precautions. Normal sweeping of small spillages and collection is appropriate. For larger spillages mechanical scooping may be necessary (use only diesel vehicles)
<b>Waste disposal</b>	Dispose spilled or contaminated material to landfill. Do not release into drains or other measures.
